REVIEWS

Alan was the hardest working photographer I have ever seen at a wedding. He and his assistant captured every moment of our day, showed up on time at 8:30 am and didn't leave until close to midnight! He was very professional to work with but also knew how to have fun and it was very natural to have him there documenting every part of our day. He was creative and also open to suggestions. He also worked well with the kids present during our wedding. I would highly recommend him to anyone looking for a photographer to document their occasion.

Alan was amazing to work with. We did our engagement photos and our wedding pictures with him. Great experience! A true professional. He was there all day taking pics with his assistant and when I say all day, I mean from morning until night. Great value and amazing quality. We had our guestbook with our engagement pictures for our guests to sign done by Alan. It was beautiful and guests are still talking about it. I will hire him again. He was a joy to work with and super creative.
